

WARRANTY BULLETIN 6-97

TO ALL DOMETIC SERVICE CENTERS:

The Dometic Corporation, as a part of our continuing focus on customer satisfaction, has introduced an enhanced program to our Warranty return and Warranty claims processing. This bulletin covers the repair of refrigerant leaks.

On all future claims for the repair of refrigerant leaks on Duo Therm air conditioners or heat pumps, please use the enclosed form to aid us in identifying the location of the actual leak. This will help our quality assurance and engineering to monitor the exact location of a leak.

We are enclosing a several copies of the refrigerant system for the Brisk Air and Penguin models. The Brisk Air can be substituted for the basement air conditioner and heat pump.

This is another step in our continuing effort to provide our customers with quality products. If you need additional copies, please contact our Communications Center (219-294-2511) or Technical Service (800-216-5115) or the Warranty Department (219-463-2191).

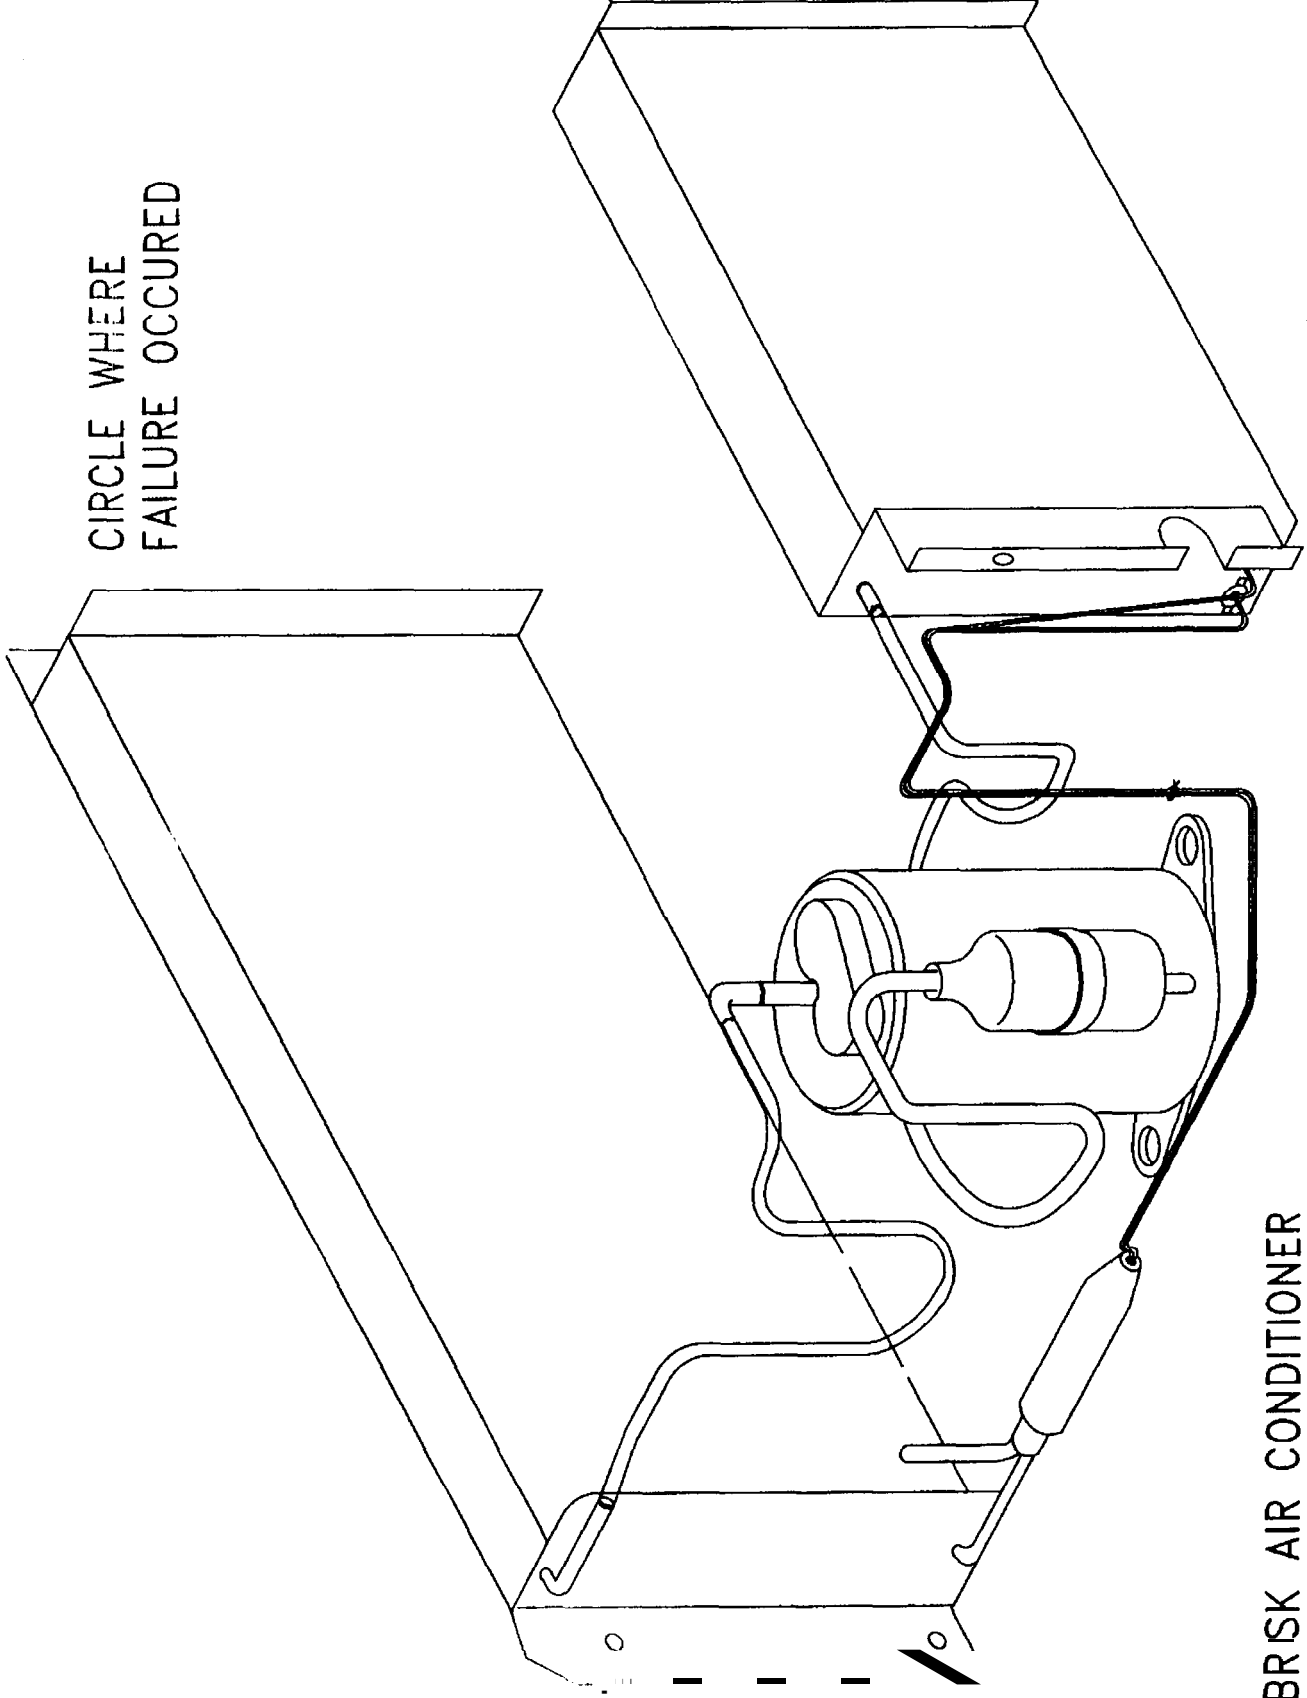

Dometic thanks you for your help. Should you have any questions, please do not hesitate to contact us.
