PRODUCT INDEX Pages 4 -12

This product index has several ways to help you find what you are looking for.

A model number.

For Toilets, this number can be found on a sticker on the base of the toilet.
For most other products, the model number is on the serial number label.

An item number

This is the actual part number used when ordering from Dometic.
It could be on your invoice, if not, it should be on the product literature that came with the product. This guide shows a 9 digit number, if you have the last 6 numbers and contact Dometic, we can find the product you are looking for.

A description.

This will have either the name of the product or the model number in it.

A reference number.

This is the number that shows what parts list goes with the product.
With this number, you can call Dometic, give them the number and they can tell you what product it is

A picture.

This helps confirm all the above and also can be a big help when none of the above can be found.

For help finding the correct product when all else fails, contact your dealer, distributor or Dometic direct.
