LITERATURE NUMBER MPD 93218

FLUE BOX ASSEMBLY REPLACEMENT

Revision B, 10/30/18

For complete water heater instructions consult MPD - 93755, 93756, 93758.

COMPLETE SHUT DOWN

Spark Ignition Models:

- Turn remote switch to "OFF" position.
- Remove red wire from left hand terminal of ECO switch (ECO to valve).

Pilot Light Models:

- Turn lighting dial to "OFF" position.

REMOVAL PROCEDURE

- Remove screw in upper front right-hand corner and lower left rear corner.
- Flue box will pull free.

INSTALLATION PROCEDURE

- Place flue gasket (A) over exhaust tube located in upper left-hand corner of heater. Be sure flanges face inward toward heater.
- Position flue box assembly (B) over flue tube and gasket (A) and screw in place.

BURN / SCALDING INJURY

- Water Heater must be completely shut down and cool before installing flue box to avoid skin burns or other injuries.
