GENERAL INSTRUCTIONS

TOOLS REQUIRED:

20 ft. Tape and Ruler, Hacksaw with New Blade

To determine the correct length of the Roller Tube:

- A. Measure the old Roller Tube; or
- B. For window awning, door awning, sun screen, stone guard and Elite & Deluxe slide topper, measure the pin-to-pin distance between the top mounting brackets (or top castings) to determine the awning length. See examples below. Determine the cut length for the roller tube off charts on page 2.
- C. For Elite FC slide topper measure the cover and subtract 3-1/4" for roller tube length.
