OPERATION

The Slide Out Topper will automatically open and close as your slide out room opens and closes.

Because the awning is level, water may puddle on top of the canopy. As the slide out room is closed and the awning rolls up, these puddles will spill over the sides of the awning.

CAUTION

Do Not use your Slide Topper in snowing or freezing-rain conditions. Such use will prevent the awning from closing, damage to the awning and room will occur.

⚠ WARNING

To prevent personal injury and damage. Do Not operate your slide out room without first checking that there are no people or objects in the path of the room or the Slide Topper.

HELPFUL HINTS FOR AWNING CARE

- If the awning is wet when rolled up, as soon as conditions allow, roll it out and let it dry before rolling it up again. This will help prevent mildew and staining.
