 WARNING

This manual must be read and understood before installation, adjustment, service, or maintenance is performed. This unit must be installed by a qualified service technician. Modification of this product can be extremely hazardous and could result in personal injury or property damage.

 AVERTISSEMENT

Lire et comprendre ce manuel avant de procéder à l'installation, à des réglages, de l'entretien ou des réparations. L'installation de cet appareil doit être effectuée par un réparateur qualifié. Toute modification de cet appareil peut être extrêmement dangereuse et entraîner des blessures ou dommages matériels.

INSTALLATION INSTRUCTIONS

**3309790.008
Center
Rafter**

SAFETY INSTRUCTIONS

This manual has safety information and instructions to help users eliminate or reduce the risk of accidents and injuries.

RECOGNIZE SAFETY INFORMATION

This is the safety-alert symbol. When you see this symbol in this manual, be alert to the potential for personal injury.

Follow recommended precautions and safe operating instructions.

UNDERSTAND SIGNAL WORDS

A signal word, **WARNING OR CAUTION** is used with the safety-alert symbol. They give the level of risk for potential injury.

WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury.

CAUTION used without the safety alert symbol indicates, a potentially hazardous situation which, if not avoided, may result in property damage.

Read and follow all safety information and instructions.

INSTALLATION/OPERATION

For Installation of: 3309790.008 A&E Center Rafter
APPLICATION

The center rafter applies a firm even tension on the Trimline awning fabric. This will give more stability to the awning when used in moderate winds.

Important: Read and understand the entire installation procedure for the Center Rafter before installation and use.

Note: Dometic Corporation assumes no liability for damages or injuries resulting from installation or operation of this product.

Dometic Corporation reserves the right to modify; appearances and specification without notice.

INSTALLATION

After the Awning is mounted on the recreational vehicle (per the awning installation instructions) and opened completely. The center rafter can then be installed.

1. Remove center rafter from the carton and locate the ball mounting bracket and two screws. Place the ball mounting bracket 1/4 " below the awning rail in the center of the awning storage bag. Mark the screw location and drill two 9/64" pilot holes.

2. Seal the screw holes with silicon sealant before placing the ball mounting bracket on the wall. Install and tighten the two screws.
3. Place the ball end of the tension rafter into the ball mounting bracket. Telescope the twist pole and place the button in the joint coupler in the center of the awning lead rail.
4. Put tension on the poles and twist to lock in place. This will complete installation of the center support rafter on the Trimline Awning.
