2 Installation Instructions

1 Remove the Decorative Strip

2.1 Prepare for Installation

1. Open the refrigerator far enough that the top of the refrigerator door is accessible.
2. Remove the door panel decorative strip, if present, by gently pushing the six tabs away from the top of the door with the flat blade of a screwdriver or similar tool.

2 Insert the Door Panel

2.2 Install the Door Panel

1. Insert the refrigerator door panel into the grooves of the door frame.
2. Push the panel downwards so that the lower edge of the panel is fitted into the bottom groove of the door frame.
3. Snap in the decorative strip along the top of the refrigerator door.
4. Repeat the steps in "2.1 Prepare for Installation" and steps 1–3 of this section for the freezer door panel.
