DOMETIC WH-6GEA
HOT WATER HEATER

SERVICEABLE COMPONENTS
LOCATED ON THE EXTERIOR
FOR EASY ACCESS, INCLUDING
THE 120VAC ELEMENTS

Deliver superior performance with low maintenance. Featuring the industry's fastest recovery rate, the robust nickel-based Incoloy™ heating element ensures efficient heat transfer with long-lasting durability. Save time and money with Dometic's corrosion resistant aluminum tank which evenly holds and distributes heat. Wrapped in a thermal blanket, our hot water heaters are enhanced for energy efficiency and feature a large diameter drain for easy servicing. Easily accessible connections and controls are protected by the one-piece, die-formed housing. Dual latch doors and frames are easy to install on any RV side.
