Refrigerator Model DMH1072

Read these instructions carefully. These instructions **MUST** stay with this product.

INTRODUCTION

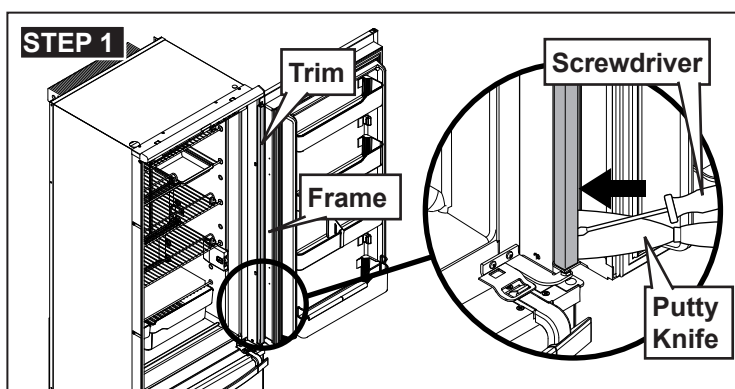

These Door Panel Insert Accessory kits are designed and intended for installation in new refrigerators or as a replacement for existing door panels in a Recreational Vehicle during or after the RV manufacture.

Read these instructions before starting the installation.

Dometic Corporation reserves the right to modify appearances and specifications without notice.

INSTALLATION

A. Removing The Door/Drawer Side Trim (If Required)

 The refrigerator door trim pieces can be found attached to the cooling unit in the rear of the refrigerator. If a trim piece is damaged during removal, contact Dometic customer service for replacement service kit # 3315734.900.

INSTALLATION

B. Installing The Door/Drawer Panels

- If you are installing accessory kit 3313470.164, proceed with Step 1.
- If you are installing accessory kit 3106863.214B or 3106863.214C, skip to Step 2.

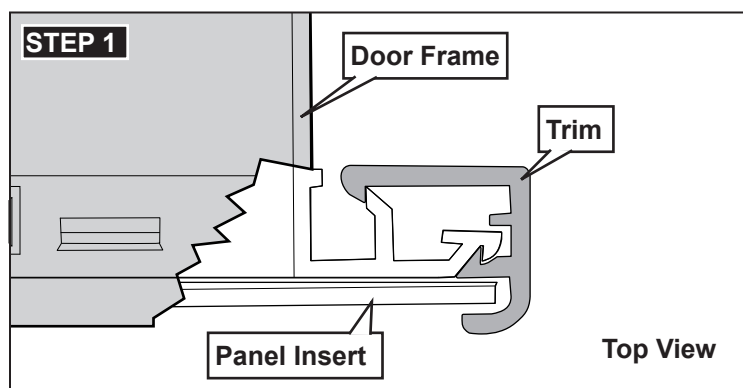

- Firmly push the cardboard spacer against the refrigerator to attach.

-  Make sure the panels are positioned behind the top, bottom, and side trim pieces.

C. Installing The Door And Drawer Side Trim

- Start by placing the leading edge of the side trim against the trim on the panel insert and apply inward pressure to snap the trim into position as required.
