FIGURE 1.1

2.1

Remove the side steps on both sides of the vehicle.

Loosen the cable bracket before fitting the left rock sliders. Refit the cable bracket after the rock slider has been secured.

2.2

Lift the rock sliders into position as shown using the vehicles jack.

2.3

You will secure the rock sliders by bolting through the existing holes in the chassis. See diagram 1.1 for placement of the fasteners.

For the left hand rock slider you will need to use the welded bolt plate (item 8) to secure the rock slider at the rear mounting point between the chassis and the tank. See diagram 1.1 for placement of the fasteners
