

FRONT RUNNER

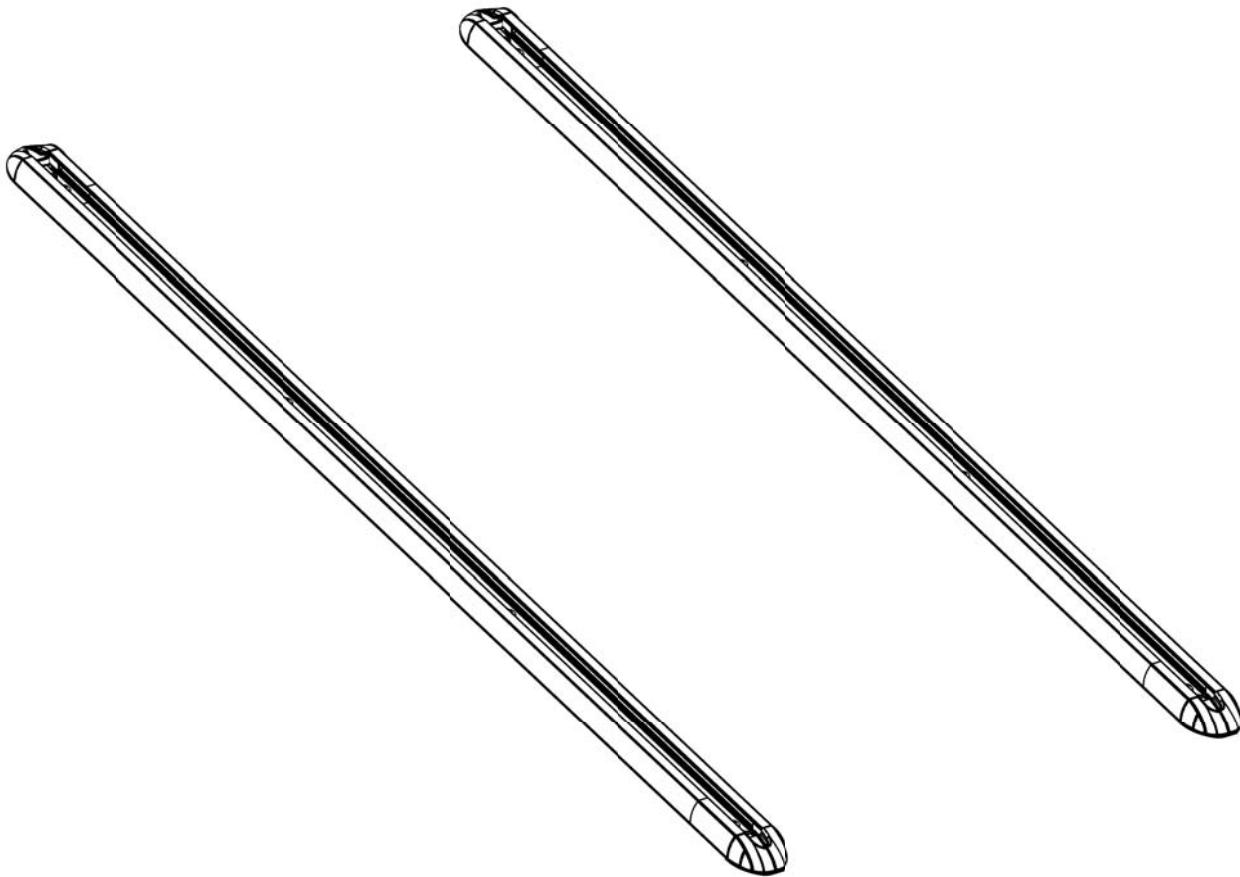

CANOPY TRACK

ENG

TRCAUNI

INSTALL TIME: 15 mins

IMPORTANT WARNING!

IT IS CRITICAL THAT ALL FRONT RUNNER PRODUCTS BE PROPERLY AND SECURELY ASSEMBLED AND ATTACHED TO YOUR VEHICLE. IMPROPER ATTACHMENT COULD RESULT IN AN AUTOMOBILE ACCIDENT, AND COULD CAUSE SERIOUS BODILY INJURY OR DEATH TO YOU OR TO OTHERS. YOU ARE RESPONSIBLE FOR ASSEMBLING AND SECURING ALL FRONT RUNNER PRODUCTS TO YOUR VEHICLE, CHECKING THE ATTACHMENTS PRIOR TO USE, AND PERIODICALLY INSPECTING THE PRODUCTS FOR ADJUSTMENT, WEAR, AND DAMAGE. THEREFORE, YOU MUST READ AND UNDERSTAND ALL OF THE INSTRUCTIONS AND CAUTIONS SUPPLIED WITH YOUR FRONT RUNNER PRODUCT PRIOR TO INSTALLATION OR USE. IF YOU DO NOT UNDERSTAND ALL OF THE INSTRUCTIONS AND CAUTIONS, OR IF YOU HAVE NO MECHANICAL EXPERIENCE AND ARE NOT THOROUGHLY FAMILIAR WITH THE INSTALLATION PROCEDURES, YOU SHOULD HAVE THE PRODUCT INSTALLED BY A PROFESSIONAL INSTALLER OR OTHER QUALIFIED PERSONNEL.

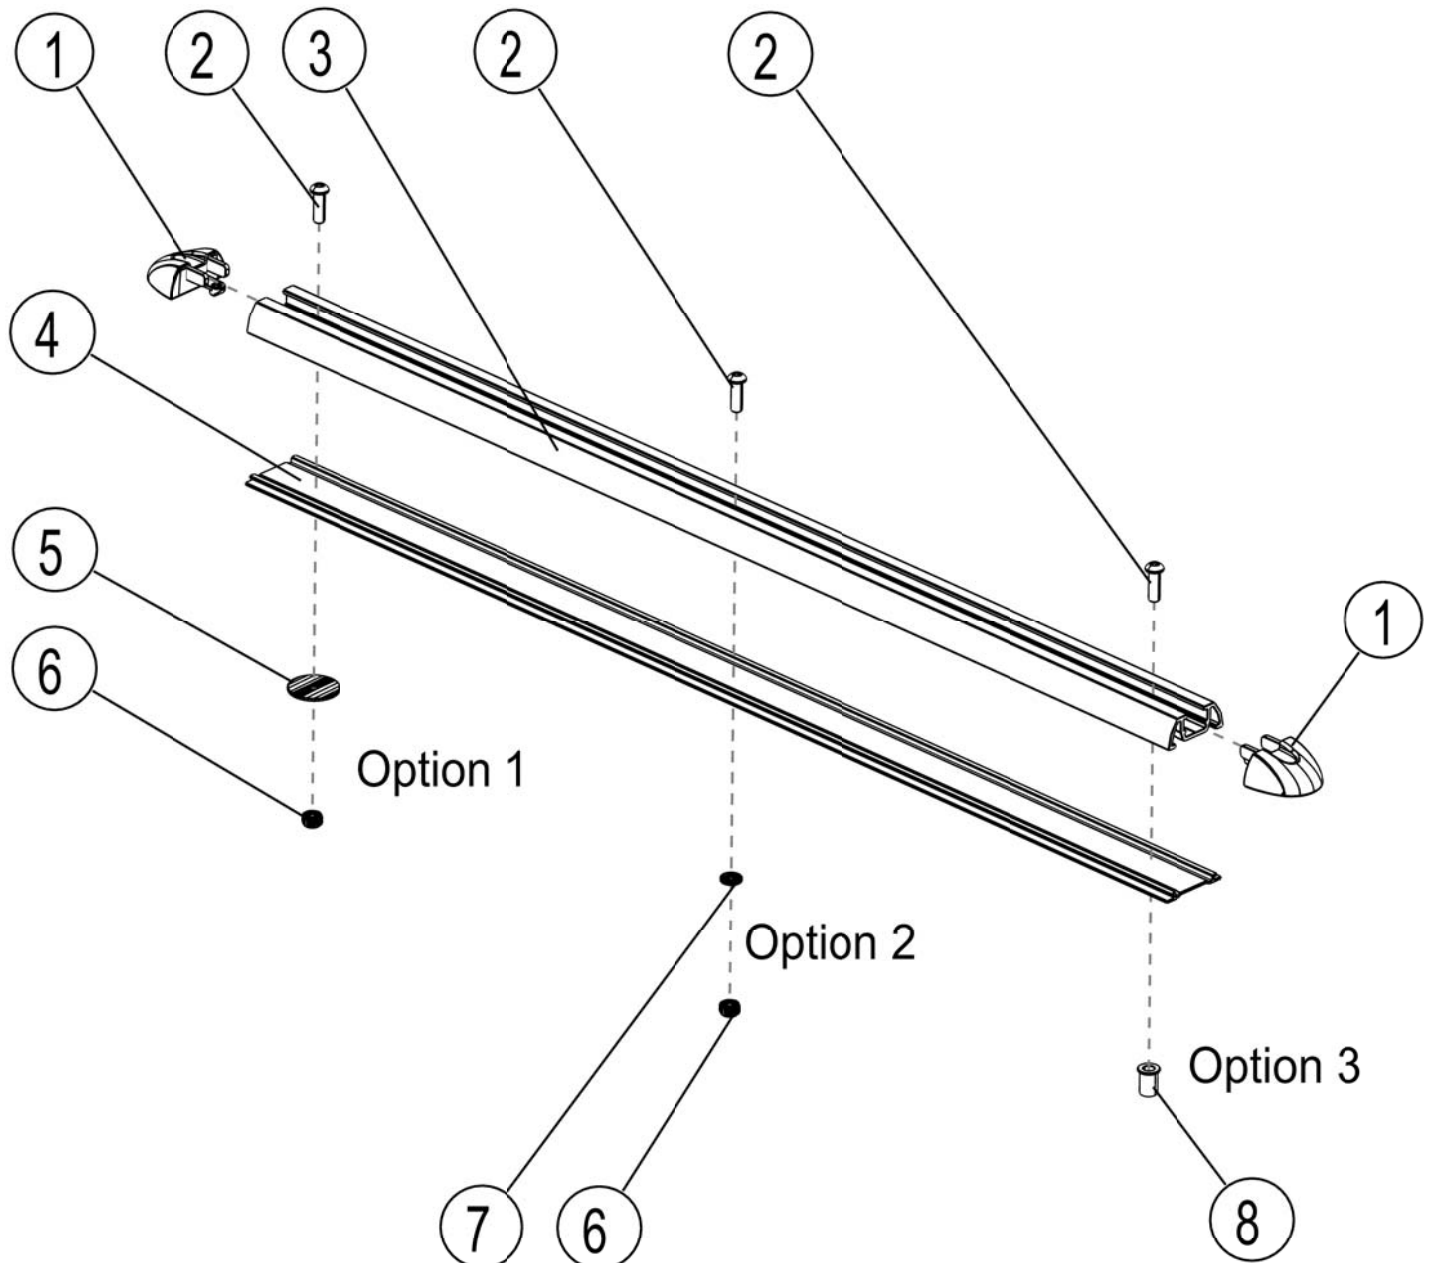

1 GET ORGANIZED

Here is what you are looking at:

Item #	Quantity	Description
1	2	END CAP
2	TRACK DEPENDANT	M6 x 20 or M6 x 30 BUTTON HEAD BOLT
3	2	CANOPY TRACK
4	2	PROTECTIVE STRIP
5	TRACK DEPENDANT	M6 x 30 FLAT WASHER
6	TRACK DEPENDANT	M6 NYLOC NUT
7	TRACK DEPENDANT	M6 FLAT WASHER
8	TRACK DEPENDANT	M6 RIVNUT

You will need:

- ☐ 4 mm Hex Key
- ☐ 6.5 mm Drill Bit
- ☐ Drill Machine
- ☐ Marking Pen
- ☐ 10 mm Flat or Socket Wrench
- ☐ Silicone
- ☐ 9 mm Drill Bit (Rivnut fitment only)
- ☐ Rivnut Tool (Rivnut fitment only)

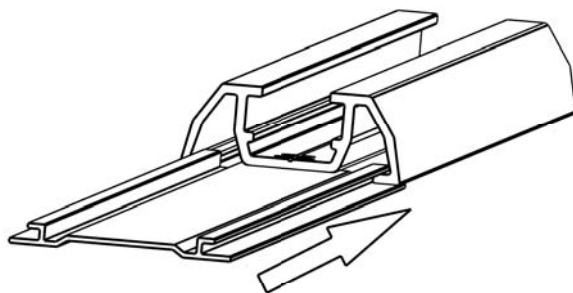

(A) Familiarize yourself with the parts and then step away from the work area and read through these instructions from beginning to end. Take a moment as a little prep now may save you a lot of time later.

2 INSTALL CANOPY TRACK

- (A) Starting at one end of the Canopy Track (Item 3), slide the Protective Strip (Item 4) all the way into the Canopy Track until the edge of the Protective Strip aligns with the edge of the Canopy Track.

Using each of the 6.5 mm holes in the Canopy Track as a guide, drill a corresponding 6.5 mm hole into the Track Lining.

Certain steel canopies come with a inner roof lining. Should you wish not to drill and bolt through the entire roof and roof lining, you will use the M6 Rivnuts (Item 8) supplied for the installation and a little preparation will be necessary. Take both the 6 mm and 9 mm drill bits and using a suitable tape, wrap a band of tape around the drill bit to act as a stopper to prevent you from drilling to deep and into the roof lining.

5 mm from tip of drill bit to start of tape.

- (B) Place the Canopy Tracks onto the Canopy in the desired location. Check that chosen position is suitable for mounting as canopy design will vary from manufacturer to manufacturer. Once you are happy with the location of Canopy Tracks, mark the position of all the 6.5 mm holes in the Canopy Track onto the canopy.

Remove the Canopy Tracks and drill a 6.5 mm on each of your markings.

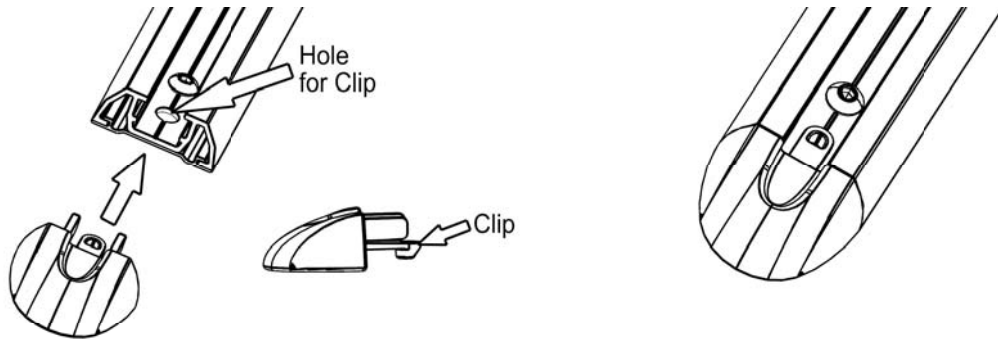

If you have the steel canopy with the roof lining and wish to install your Canopy Tracks using Rivnuts, you will need to change drill bits from 6.5 mm to 9 mm and re-drill the 6.5 mm holes to 9 mm. Once all the holes are drilled to 9 mm, install a Rivnut in each hole.

- (C) Place a suitable amount of silicone over and around each of the holes in the canopy. Place the Canopy Tracks back onto the canopy, lining up the holes in the Canopy Tracks with the holes in the canopy.

- (D) Referring to three different mounting options on Page 2 as a guide, select the best suited method and combination of fasteners and secure the Canopy Tracks to the canopy.

2 INSTALL CANOPY TRACK

- (D) Once the Canopy Tracks are installed and you have inserted the required feet or stud plates into the Canopy Tracks, slide the End Caps (Item 1) into either end of the Track, clipping the clip on the End Cap into the hole in the Track as indicated.

- (E) Congratulations, you have completed your installation. Take a step back and admire your work. Good Job!

3 INSTALL OTHER VEHICLE AND RACK ACCESSORIES

- (A) Now's the time to visit your favourite Front Runner dealer in person or online.
