

385312013 REPLACEMENT AIR VALVE FOR MASTERFLUSH 8700 AND 8600 SERIES TOILETS

This replacement air valve creates optimal air flow in discharge plumbing for consistently powerful flushes.

INSTALLATION

- 1. Locate proper air valve at rear of toilet (inside gray circle)
- 2. Lift or remove small rubber flapper inside top of valve (1).
- 3. Push replacement air valve securely into tube (2). No sealants or fasteners are required.
- 4. Toilet is ready for operation (3).
