

# Installation Instructions

## 3108592.XXX Storage Chest

1. Place open car-top stow on vehicle between car rack bars. Pack luggage in an orderly manner to maximize storage capability.
2. Close inner containment shell and zip tight.
3. Close outer storm shell, safely protecting load from weather and road hazards.
4. Loop front and rear lateral compression straps around car-top rack bars.
5. Clinch straps tight with quick-release buckles to safely secure load to vehicle.
6. Fasten clasps on all three Cross Compression Straps, firmly securing load in position.
