

Bezel Kit

Part # SB39526 & SB39544

Back mount & NFB back mount

NOTICE!

Installer: These instructions contain important safety information and must be forwarded to the boat owner.

The following instructions describe how to install a bezel kit on the back mount rack system helm. The SB39526 kit is designed to work with SH5210 series back mount rack helms only, while the SB39544 kit is designed to work with SH5230 series NFB (No Feed Back) back mount rack systems only. Also included are instructions for installing a steering wheel.

1. Fully install the helm mounting plate (item 1) and helm in accordance with instructions packed with the helm.
2. Slide the bezel (item 2) over the shaft and retain in place with two screws (item 3).
3. Insert key (item 4) in slot on shaft, and push steering wheel firmly onto shaft.
4. Retain steering wheel in place with washer (item 5) and lock nut (item 6).

CAUTION!

Steering wheel should fit snugly on key. To avoid damage to the helm, do not hammer into position.
